3 50. "Operational and Functional"

4 a. Within 30 Days after Settling Defendants conclude that the
5 Remedial Action is Operational and Functional, Settling Defendants shall schedule
6 and conduct a pre-certification inspection to be attended by Settling Defendants
7 and EPA. If, after the pre-certification inspection, the Settling Defendants still
8 believe that the Remedial Action is Operational and Functional, they shall submit a
9 written report requesting certification to EPA for approval, with a copy to the
10 State, pursuant to Section XI (EPA Approval of Plans and Other Submissions)
11 within 30 Days of the inspection. In the report, a registered professional engineer
12 and the Settling Defendants' Project Coordinator shall state that the Remedial
13 Action is Operational and Functional. The written report shall include as-built
14 drawings signed and stamped by a professional engineer. The report shall contain
15 the following statement, signed by a responsible corporate official of a Settling
16 Defendant or the Settling Defendants' Project Coordinator:

17 To the best of my knowledge, after thorough investigation, I certify
18 that the information contained in or accompanying this submission is
19 true, accurate and complete. I am aware that there are significant
penalties for submitting false information, including the possibility of
fine and imprisonment for knowing violations.

20 If, after completion of the pre-certification inspection and receipt and review of the
21 written report, EPA, after reasonable opportunity to review and comment by
22 DTSC, determines that the Remedial Action is not Operational and Functional,
23 EPA will notify Settling Defendants in writing of the activities that must be
24 undertaken by Settling Defendants pursuant to this Consent Decree in order for the
25 Remedial Action to be Operational and Functional. EPA will set forth in the notice
26 a schedule for performance of such activities consistent with the Consent Decree
27 and the SOW or require the Settling Defendants to submit a schedule to EPA for
28 approval pursuant to Section XI (EPA Approval of Plans and Other Submissions).

1 Settling Defendants shall perform all activities described in the notice in
2 accordance with the specifications and schedules established pursuant to this
3 Paragraph, subject to their right to invoke the dispute resolution procedures set
4 forth in Section XX (Dispute Resolution).

5 b. If EPA concludes, based on the initial or any subsequent report
6 requesting certification, and after a reasonable opportunity for review and
7 comment by DTSC, that the Remedial Action is Operational and Functional, EPA
8 will so certify in writing to Settling Defendants.

9 c. If EPA fails to certify that the Remedial Action is Operational
10 and Functional within 90 Days after a request, EPA shall be deemed to have denied
11 the request, unless Settling Defendants agree to an extension of time. Settling
12 Defendants may, at any time thereafter, invoke Dispute Resolution pursuant to
13 Section XX (Dispute Resolution).

14 d. Nothing herein shall preclude Settling Defendants from
15 requesting, and EPA from granting, pursuant to the same procedures set forth in
16 Subparagraphs a-c of this Paragraph, certification that a phase of the Remedial
17 Action is Operational and Functional; provided, however, that any such
18 certification shall be conditioned on such phase remaining Operational and
19 Functional at the time Settling Defendants request certification for the final phase
20 of the Remedial Action. In the event Settling Defendants request certification that
21 a phase of the Remedial Action is Operational and Functional, and such request is
22 granted, the resulting certification shall not affect the Operational and Functional
23 Date.

24 e. Upon approval of the certification report by EPA or pursuant to
25 a ruling by the Court, the Operational and Functional Date shall be the date when
26 the last report requesting certification of the final phase of the Remedial Action
27 was submitted.

28 f. The Operational and Functional Date established pursuant to
